

Who are the Moldovans? The Language of the Moldovans explores this question from the perspective of debates about the languages spoken by the people of this ex-Soviet state. Locating language as a central point of both cohesion and conflict in the regions recent history, the peculiarities of the Moldovans are illustrated by a survey of language attitudes, a series of ethnographic interviews, and extensive observations by the author. The result is an image of an emerging nation that is, at once, similar to the experiences of other ex-Soviet states and uniquely complex. Much of that complexity lies in the populations extensive multilingualism and in uncertainty about the Romanian-ness of the official language. This cross-discipline volume is of great interest to advanced students and researchers of linguistics, political science, and Eastern European studies.
